Fermann

COMPANY INTRODUCTION

Having hot drinks means enjoying, sharing, discovering...It is really sweet and comfortable to drink hot beverages at the right temperature with the one you like. Did you ever dream of drinking hot coffee or tea whenever and wherever you want? Fermann here to fulfill your dream, satisfy your appetite and warm your heart.

With more than 18 years'experience, Fermann is a key manufacturer in quality thermal wares to delight your life.Our high—quality materials, advanced processing technique and strict quality control guarantee profession and best insulation.

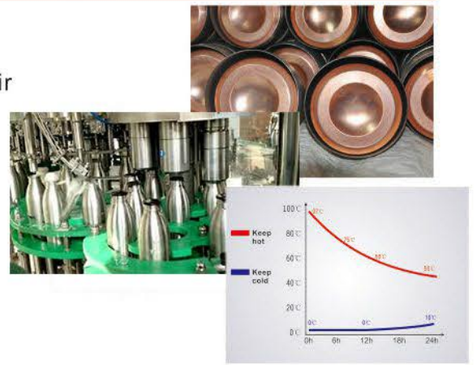
So just stop waiting and enter our thermal wares world to find out the amazements and affections of our products!

Fermann

Why us

For food contact safety, we use safe materials (100% fresh), all our items can pass LFGB, FDA, REACH test.

For our stainless steel items, the surface of their inners are copperized, and all these items are vacuumized for around 25 mins, up to 550℃, so can be ensured over heat retention norms.



Strict production processing control makes high quality products. Base on 3 times temperature testing of all goods before delivery and final inspection according to AQL Ⅱ standard, we can ensure the superior quality and one year warranty.

We have our own CNC processing center and develop the molds by ourselves. Professional design team can support OEM and ODM.

Fermann

S/S VACUUM AIRPOT 1.6L, 1.9L, 2.2L, 2.5L, 3.0L

Double wall stainless steel vacuum body.
PP plastic head , handle and base .
With stainless steel presser .
S/S bottom is available.

There are too many worries and rules
of the game in urban life,
people need to be calm
and sit down for a drink,
such as a cup of hot coffee.
Life is too short,
we should seize the time
and enjoy every moment.
So just be yourself in the spare time,
find the beauty of your world.
